

# Adwest-SATTi

A CECO Environmental Brand

## OXIDIZER SERVICE, SPARE PARTS, REBUILDS & RELOCATIONS

For ALL RTO, RCO, Catalytic and Thermal Oxidizer Brands

When you need service, spares, preventative maintenance, catalyst replacement or conversion to RCO for your existing oxidizer system, **ADWEST Technologies** and **CECO Environmental** provide a one call resource for technical oxidizer service! We not only provide service, parts and preventative maintenance for our Adwest Technologies, Met-Pro and CECO Abatement oxidizer brands but ALL makes, models and brands of thermal and catalytic oxidizers.

### Contact Adwest Technologies Today for 24/7 Services Including:

- Oxidizer PM - preventative maintenance
- Operator & haz-op training
- Low NOx RTO burner & piping train retrofits
- Spare parts replacement/upgrades
- VOC destruction efficiency optimization
- Catalyst replacement for RCO & recuperative cats
- RCO catalyst conversions
- RTO heat transfer media replacement
- Oxidizer relocation and installation
- Oxidizer energy cost reduction
- Oxidizer control panel replacement
- In-house oxidizer spares inventory
- Oxidizer service contracts available

**WE SERVICE ALL BRANDS  
OF RTO, RCO AND  
OXIDIZER SYSTEMS!**

*RTO Relocation*

*Rotary RTO Rebuild*

*RTO HX Media Replacement  
& Insulation Hot Spot Repair*

Our technical engineering and service staff has collectively over 300 years of providing service on thousands of RTO, RCO, recuperative thermal and catalytic oxidizers worldwide! We can service dual chamber, single bed rotary valve RTO, multiple chamber Regenerative thermal (RTO) and catalytic (RCO) oxidizers as well as recuperative oxidizer systems. Adwest Technologies utilizes random packing and structured block medias to optimize and lower your oxidizer energy usage. Need your RTO or oxidizer relocated? We can do that as well, on time, on budget with one call to:
