

- ▶ Rugged
- ▶ Long life
- ▶ Low maintenance
- ▶ Can run dry

# CECO Mefiag

Built stronger to last longer

The Mefiag self-priming magnetic pumps combine the convenience of being self-priming with the reliability of a magnetic pump. The MP-8Q, MP-10Q and MP10-QHP are self-priming up to 2,5 meters head. Since they are self-priming, these pumps can raise liquids from below pump level. These pumps, like all the Mefiag magnetic pumps, require little maintenance. They can be allowed to run dry for lengthy periods and they are operated simply.

Pump	Max.Cap. m <sup>3</sup> /h	Max.Press. Bar	Kw	Volts
MP-8Q	7,6	0,8	0,75	230/400
MP-10Q	11,8	1,3	0,75	230/400
MP-10QHP	15,9	1,6	1,1	230/400
MP-24Q	40,9	2,4	4,0	230/400

MP-10Q
